- Children who were aged under 5, female and not from an Ethnic Minority (excludes White minorities) background continue to be more likely to be adopted and less likely to be waiting with a PO
- Children aged over 5, male, from an Ethnic Minority (excludes White minorities) background, with a disability and in a sibling group continue to be more likely to be waiting with a PO and less likely to be adopted

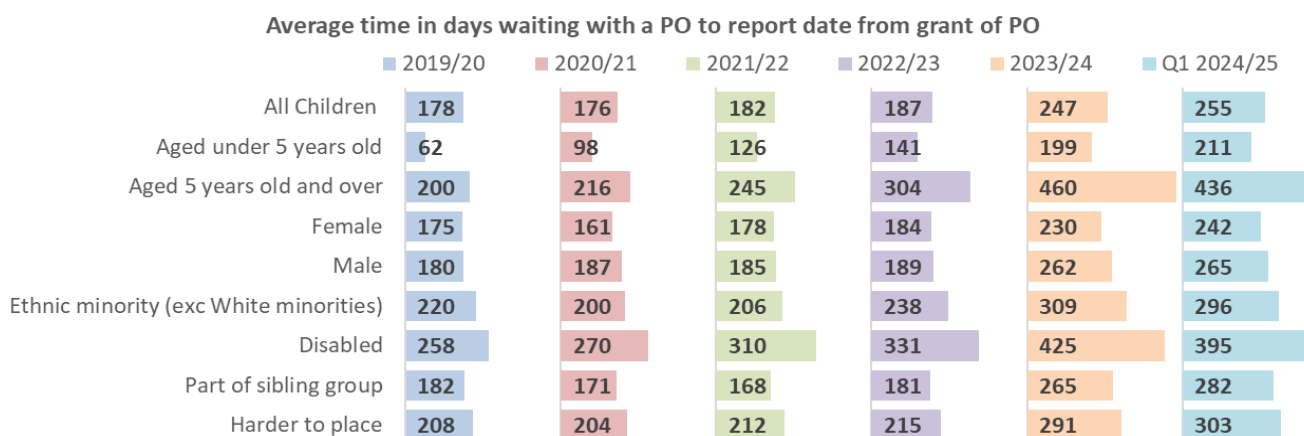

NB: "Harder to place" is defined as a child who is any of the following: 5 years or over, with an Ethnic Minority (excludes White minorities) background, disabled, or part of a sibling group. Children with more than one harder to place characteristic will be counted in each characteristic.

## CHILDREN'S TIMELINESS BY CHARACTERISTIC

## SPECIAL GUARDIANSHIP ORDERS

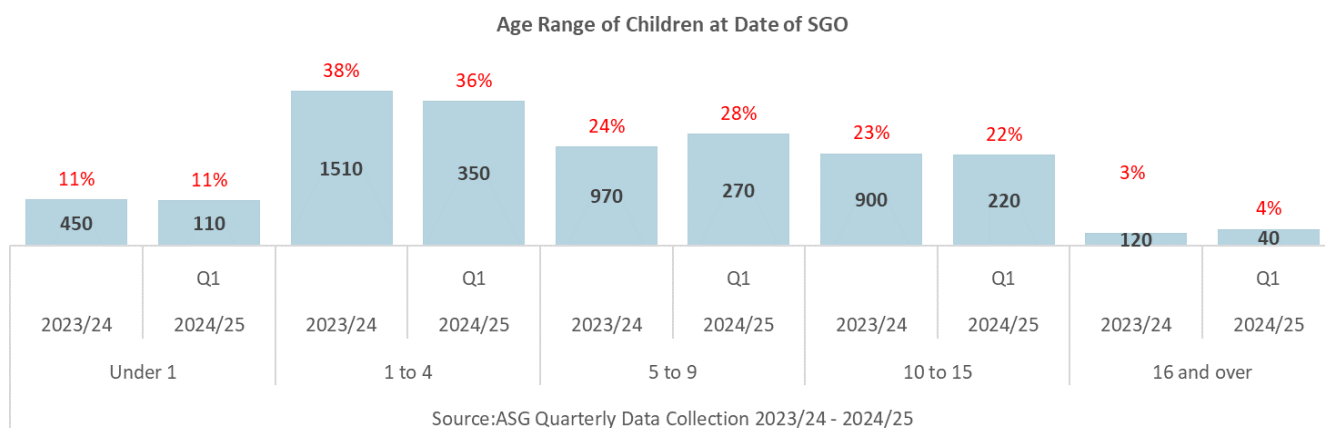

The number of Special Guardianship Orders granted in Q1 2024/25 declined when compared to the last quarter. More children are still leaving care with via a SGO than an adoption order, with SGOs accounting for **56%** of all permanence.

In Q1 2024/25, there were:

## ADOPTERS

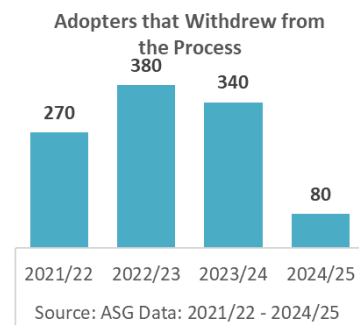

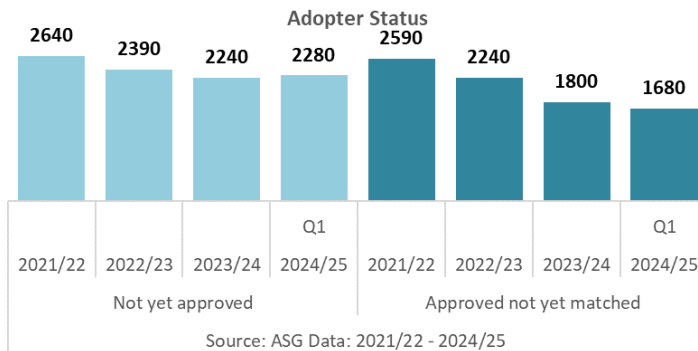

Adopter recruitment continues to decline, reducing the number of available approved adoptive families to be matched with the children waiting with a PO.

In Q1 2024/25 there were:

- **810** Registrations, a decrease of **6% (50n)** from Q4 2023/24, and a decrease of **7% (60n)** when compared to Q1 2023/24
- **490** Approvals, a decrease of **14% (80n)** from Q4 2023/24, and a decrease of **8% (40n)** when compared to Q1 2023/24

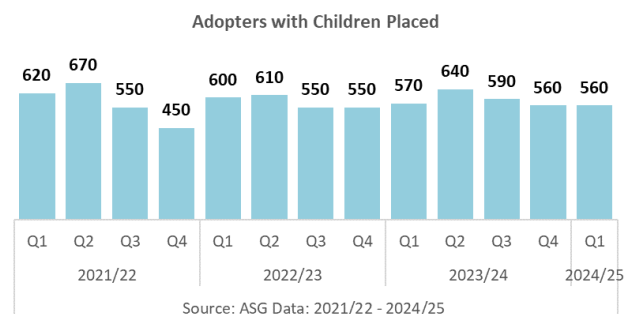

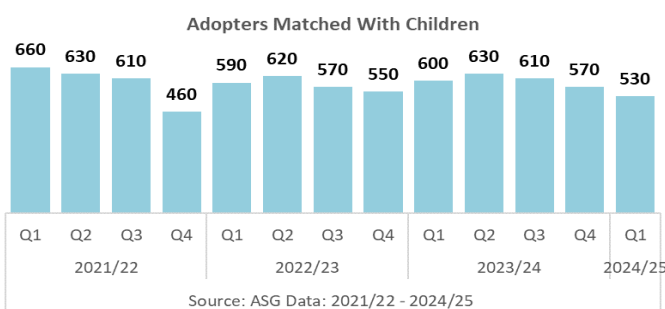

- **2280** Prospective adoptive families not yet approved, an increase of **2% (40n)** from 2023/24
- **1680** Approved adoptive families waiting to be matched, a decrease of **7% (120n)** from 2023/24

The number of adopters being matched with a child, and having a child placed with them were lower this quarter.

In Q1 2024/25 there were:

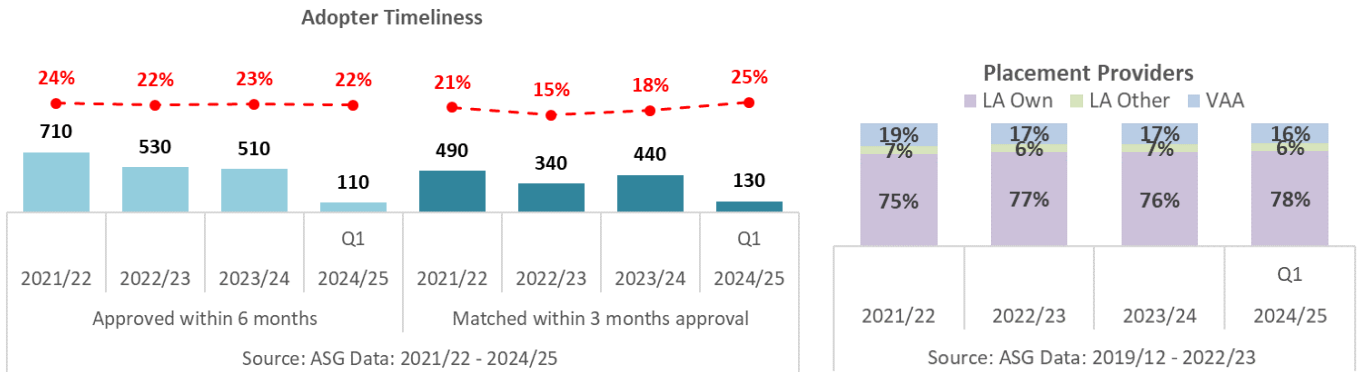

- **530** Adoptive families matched to children, a decrease of **7% (40n)** from Q4 2023/24, and a decrease of **12% (70n)** when compared to Q1 2023/24

- **25%** of approved adoptive families had a child matched with them within 3 months of approval, an increase of **7** percentage points when compared to 2023/24

There has been a decline in the proportion of VAA placements from **17%** in 2023/24 to **16%** in Q1 2024/25.

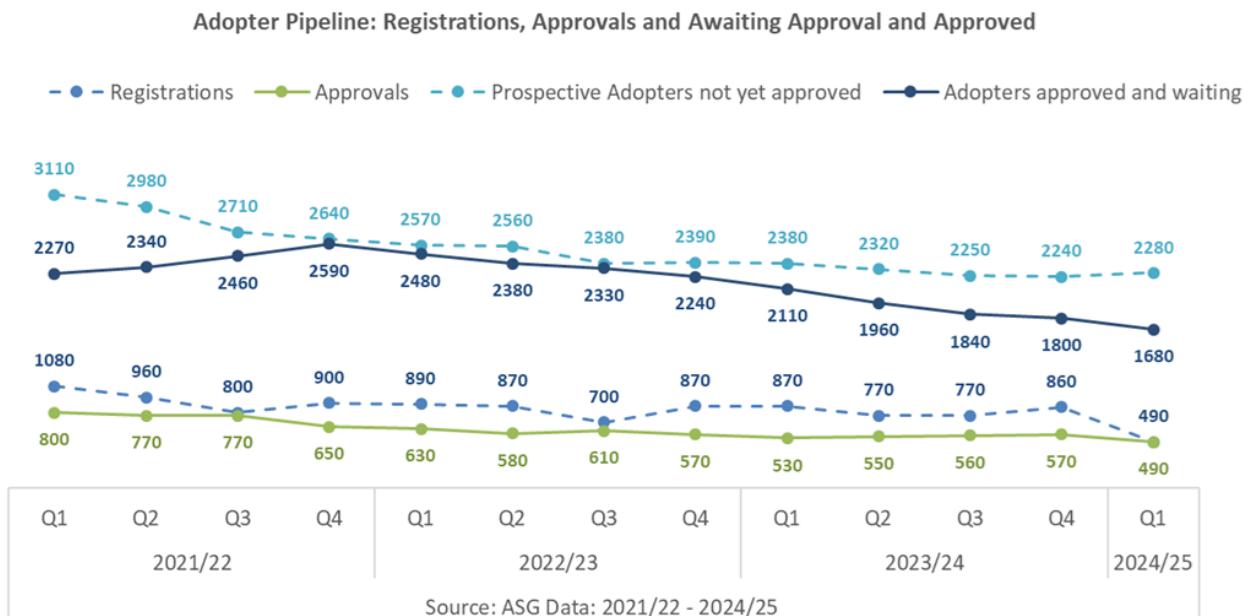

In Q1 2024/25:

- **78%** of placements were provided by LAs themselves (via their RAAs)
- **6%** of placements were provided by other LAs (other RAAs)
- **16%** of placements were provided by VAAs

NB: Percentages may not add due to rounding of numbers

### SUFFICIENCY OF ADOPTERS

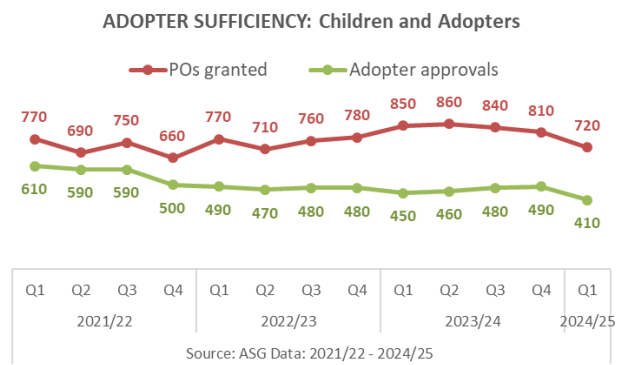

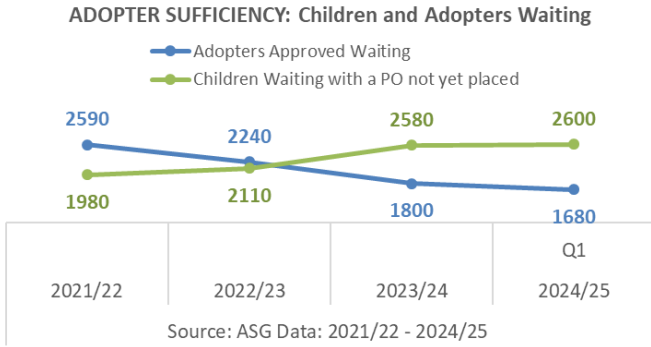

Adopter Recruitment is declining, reducing the number of approved adopters available for the children waiting with a PO. This quarter there has been a decrease in adopter registrations, approvals, adopters approved and waiting, and an increase in the number of prospective adopters not yet approved.

Adopter sufficiency continues to decline, with more children waiting with a PO to be placed with a family than approved adopters waiting. There are more POs granted each quarter than adopters approved, resulting in a higher number of children reaching the matching stage compared to adopters.

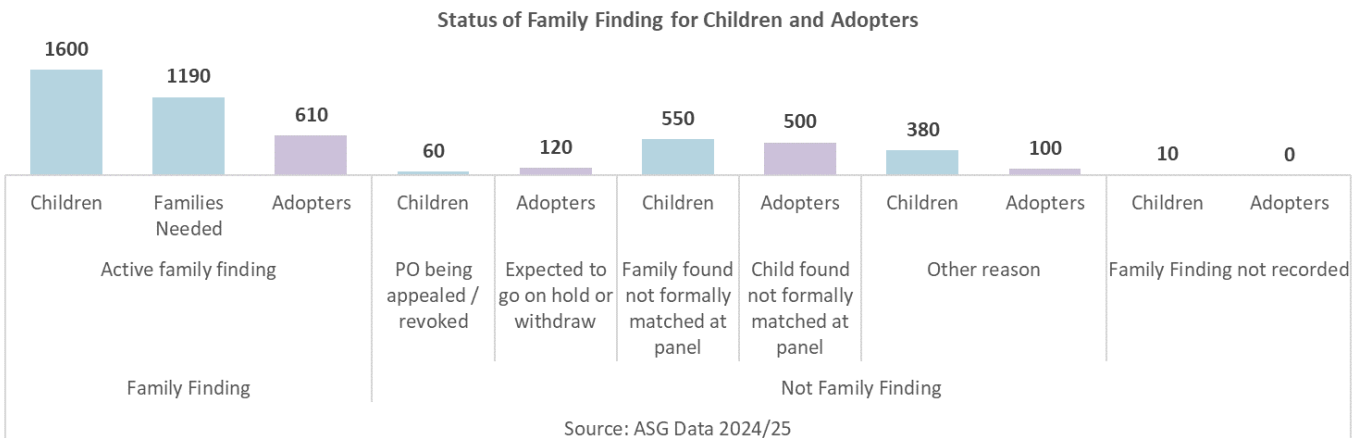

In Q1 2024/25 there were:

- **2600** children waiting with a PO not yet placed, and **1680** approved adopters waiting for a child to be placed; a gap of **290**
- **720** POs granted, and **410** adopter approvals; a gap of **310**

Comparison of the family finding status for all children and all adopters waiting show that there are:

- **1600** children with active family finding
- **1190** adopter families need (*based on the number of single children and sibling groups waiting to be placed*)
- **610** adopter families with active family finding
- **580** shortfall of adopter families

## DATA SOURCES

### ASG Quarterly Data Collection

In quarter 1 2024/25 the response rate from local authorities for the child level section was 99.3% (1 LA was unable to submit their child level data return), and the adopter level sections was 100%. The response rate for the adopter level section from Voluntary Adoption Agencies was 100%. Therefore, national and regional figures on adoptions and adopters do not include estimates made for non-responses.

### SSDA 903 Data Collection

Local authorities provide data on their looked after children using the SSDA903 collection. Data are collected from all local authorities. The information is collected at child level and includes information about the child's characteristics and their dates for each stage of the care process, including adoption. The data goes through thorough quality assurance and local authorities are able to update their historic data annually. We therefore view this as the most robust source of information on adoption. It is used to produce the [Children looked after in England including adoption](#) (SFR). The most recent data covers the year ending 31 March 2023.
